TRACKING INTELLIGENCE VAULT

MOTIV™ PHYSICIANS WELCOME

MOTIV™ Private Circle Page

Rgnmed.com/motiv. FAQs. Legal Documents. White Papers. Updates. Circle Hour schedules. Open POCs. Contact Information.

Collaboration

Clinical/financial value grows quickly by collaborating with peers, wherever located. We actively support such collaboration.

Circle Hours

At no additional cost, we host and moderate regular live-streamed conference calls among all POC Members. Join discussions on current data correlations, clinical hypotheses, best practices.

Communications Support

Circle Datasets are powerful foundations for conference presentations, articles, patient newsletters, social media posts. We help prepare and distribute them, often at no cost to POC Members.

New Observational Protocols

There are thousands of potential musculoskeletal OPs with broad clinical and financial impact. We can help stand up the ones most relevant to your practice when you wish. Or you can join existing ones.

Licensing Revenue Share

MOTIV™ POC Members share 50% of all net license fees resulting from their datasets, proportional to Case contributions. OREF and RegenMed actively seek licensees. Recommendations from POC Members are always welcome.
